Printable Ring Sizer

ringbanglesizer.com | A4 paper

Print at 100% / "Actual size" (turn OFF "Fit to page"). Then check the scale below before you use it.

1. Check the print scale

This line must measure exactly 50 mm (5 cm) on a ruler:

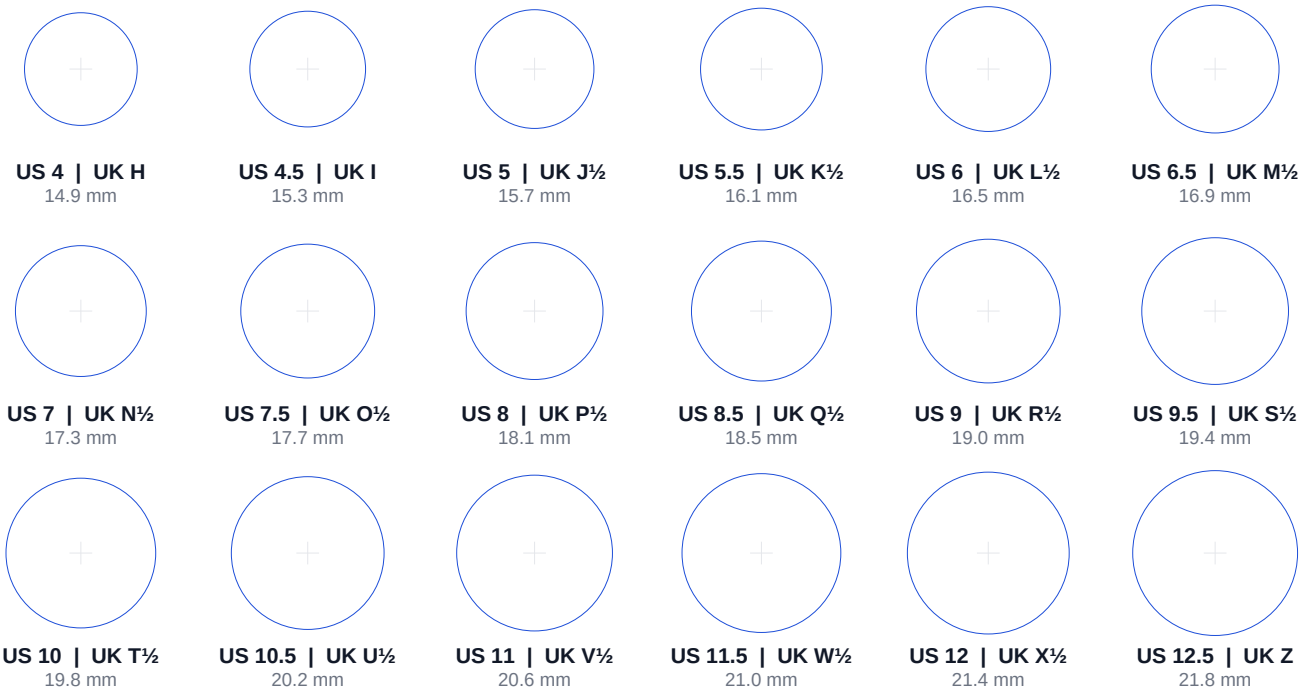

And a bank card or ID card must fit the box on the right exactly.
If it does not, the printer scaled the page: reprint at 100%.

Bank card / ID card
85.6 x 54 mm

2. Match a ring you own

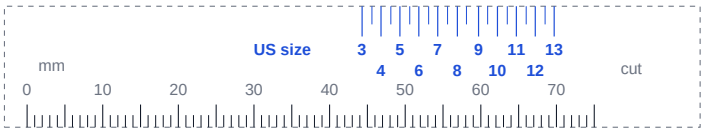

Lay a ring that fits on the circles. Your size is the circle that lines up with the INSIDE edge of the ring.
Between two circles? Choose the larger one. Labels: US size, UK size, inner diameter in mm.

US 4 | UK H 14.9 mm	**US 4.5 | UK I** 15.3 mm	**US 5 | UK J½** 15.7 mm	**US 5.5 | UK K½** 16.1 mm	**US 6 | UK L½** 16.5 mm	**US 6.5 | UK M½** 16.9 mm
US 7 | UK N½ 17.3 mm	**US 7.5 | UK O½** 17.7 mm	**US 8 | UK P½** 18.1 mm	**US 8.5 | UK Q½** 18.5 mm	**US 9 | UK R½** 19.0 mm	**US 9.5 | UK S½** 19.4 mm
US 10 | UK T½ 19.8 mm	**US 10.5 | UK U½** 20.2 mm	**US 11 | UK V½** 20.6 mm	**US 11.5 | UK W½** 21.0 mm	**US 12 | UK X½** 21.4 mm	**US 12.5 | UK Z** 21.8 mm

3. No ring? Use the finger strip

Cut out the strip, wrap it around the base of your finger (numbers outward), and read the US size where the end of the strip meets the scale. Snug, not tight; it must still slide over your knuckle.

Tips: measure in the evening at room temperature; wide bands (6 mm+) need 1/4-1/2 size larger. Accuracy about +/- 1/2 size.
